

Tanja Vujinović: AvantGardeTopia

23 December 2022–20 January 2023

artKIT

We kindly invite you to join us for the opening of **Tanja Vujinović's** solo exhibition where you will enter and explore metaphorical gardens in virtual reality and immerse yourself in a unique visual and sound installation. The opening will take place on **Friday, 23 December 2022, at 6 p.m. in the artKIT exhibition space.**

Tanja Vujinović's practice is deeply rooted in the overlaps and in-between spaces of art, technology, and science. In her multidisciplinary projects, she intertwines virtual reality, principles of video games, storytelling, 3D modeling, AI, and electronic music to create new poetic and immersive worlds as social spaces for rethinking the present and imagining a potentially utopian future anew. Recently, the artist has been developing a series of audio-visual artworks, video camera filters and digital images based on research on being embodied in immersive spaces and the development of avatars driven by the general urge to create, approach, and communicate with our Synthetic Other.
