

# Matej Fišer: Red Square

23 August–23 September 2023

artKIT

You are cordially invited to the opening of the *Red Square* exhibition by art photographer **Matej Fišer**, which will be held on **Wednesday, 23 August 2023, at 7 p.m., in the exhibition space artKIT.**

Fišer's street photography works as an independent field that represents the independent characteristics of a given moment. The exhibited series does not have a specific narrative, but the photographer is guided by the visual rhythm that winds over the series of 24 *Red Square* shots and offers free space for one's own imagination and interpretation.

A deeper and deeper look into the substance of the street moment can be lost in the images and portraits of human views and their stories, scenarios and movement, light and glowing dynamics behind the scenes, the possibility of the gaze traveling along the resulting breaks in the glass and the visual reflection that borders, shines, reflects and builds new dimensions. With street photography, the artist captures genre motifs, typical of scenes from everyday life, specific, unique moments in a given environment and society, which he transforms into magic with his uniqueness and inimitability.
